

BREEF Updates

Celebrate the life of Sir Nicholas

- You are invited to attend a memorial service for BREEF's founder, Sir Nicholas Nuttall which will be held at 6:30pm, on Monday 28th July at Clifton Heritage Park in New Providence. Parking will be available at the southern parking lot just west of BEC Clifton Pier.

BREEF welcomes new Board members

- BREEF is pleased to announce that Mr. Craig Symonette and Lady Eugenie Nuttall will now be guiding the organization in the role of co-chairs of the BREEF Board of Directors. We are also happy to welcome to the Board, Kim Aranha, an enthusiastic supporter of BREEF.

BREEF 10—Marine Conservation Teacher Training Workshop

- Our 10th teacher workshop was a resounding success. 30 teachers having gone through an intensive week of training and field exercises in San Salvador, have now returned home, eager to share what they have learned with their students, colleagues and local communities. They have now joined a network of over 250 BREEF teachers who are making a difference, by promoting environmental stewardship in their schools.

SWIFT/BREEF Open Water Swim

- Special thanks go out to SWIFT swimming for holding the BREEF/SWIFT 1st annual open water sponsored swim in June. A great time was had by all and \$3,340 in sponsorship was raised. We look forward to the next swim.

San Salvador Sea Camp

- BREEF staff is currently in San Salvador holding a SeaCamp in conjunction with the San Salvador Living Jewels Foundation. 35 local kids are learning about the marine environment whilst having the time of their lives— they have had the opportunity to see and experience first hand some of their living jewels. Learning how to snorkel was a hit with the kids as many of them got to see a new underwater world for the first time.

Summer Interns

- BREEF is pleased to welcome two summer interns, Walcott Miller and Tevin Williams, both from the CV Bethel's Marine Science Magnet Programme. Recently graduated from high school, Walcott is the first BREEF intern to participate in the Bahamas Environmental Steward Scholars (BESS) programme with the Cape Eleuthera Island School. Tevin has completed 11th grade and has a strong passion for marine science. Both interns travelled to San Salvador to assist with our teacher workshop and SeaCamp. Their contributions have been invaluable to the success of both these programmes.

Marine Summer Camp—The wonderful world of water

- Later on this summer we will be holding our second annual summer camp, August 11-15th. The camp will be based at the Ardastra Gardens and will expose kids to the wonders of our marine environment. There are only 2 spaces left. Visit our website www.breef.org for more information.

Best wishes for a happy and productive summer

BREEF is a non-profit Bahamian Foundation that promotes a sustainable relationship between Bahamians, visitors and our Marine Environment.

BREEF educates people about our underwater environment and how to protect it. An educated and aware public will call for action to sustain the marine resources on which we all depend.
